

Born To Teach is a lively and spirited collection of chapters written by a retired school teacher. Here is a commentary on the book by another professional. "What made me stick with the book was I have never been a teacher but I would have thoroughly enjoyed being a student in Mrs. Fillips class and so I read it with a bit of nostalgia. Clearly the teacher demonstrates her passion for teaching with a synopsis of how she started her teaching career, the diversity of schools she encountered, and the challenges she faced with the changing times. Whether you have been a teacher or not, everyone has been a student in their life. So you will be able to link up and laugh with the stories, anecdotes, and vignettes of the good old times in the classroom with Mrs. Phillip and her students. One thing for sure, this teacher was never afraid to go outside the box. Be inspired by her poignant memories and remember what it was like to be a student. Well written with flow, wittiness, and teaching moments only a seasoned professional could possibly muster up on the pages of this delightful book."
